

greener cleaners

homemade all-purpose cleaner

Ingredients

- 3 cups of warm water
- ½ cup vinegar
- 2 teaspoons baking soda
- 10 drops essential oil

Instructions

Add water and vinegar to the bottle. Make sure there is extra space, as the mixture will foam after the next step. Add baking soda. When reaction subsides, add essential oil as preferred. Note that vinegar is acidic, so test this cleaner before use on surfaces such as granite or marble.

White vinegar does not kill 100 percent of germs, so some situations may require precleaning with soap and water.

homemade glass cleaner

Ingredients

- 1 tablespoon cornstarch
- 2 cups warm water
- ¼ cup white vinegar
- ¼ cup rubbing alcohol

Instructions

Add the cornstarch to the bottle. Add other ingredients. Shake well.

Bonus tip: Wipe down glass with black-and-white newspaper for a streak-free shine.
