

### Tools to Help You Read

If you really want to learn, you sometimes have to read books that are very hard. You know a book is too hard when there are many new words and ideas. You might feel lost and confused about what the book is saying. There are things you can do to help you understand what you read. There are twelve fix-up options that help readers remember to make predictions, visualize, and ask questions. Sometimes you want to ask an adult or another student for the answer. You don't have to stay stuck. The important thing is to reach into your toolbox and try some fix-up option tools!
