

The Case of the Murdered Librarian

Cast of Characters:

Judge (mallet / graduation gown)

Lawyer (shirt and tie)

Suspect #1

Suspect #2

Suspect #3

Jury Members (everyone else)

Judge: I call this meeting to order.

Lawyer: Ladies and gentlemen of the jury, for a person to be found guilty of a crime, there must be sufficient proof that he was the one who committed it. Keep this in mind as you go over the facts of this very unusual case.

Three members from the CSI Club have been accused of murdering Mr. Montgomery, the library maintenance worker, after last week's CSI Club. The defendants claim they are not guilty of this crime and say they were picked up by their parents after the meeting ended. They have movie tickets 30 minutes after the CSI Club let out.

Let's take a look at Evidence A. Fingerprints were found on the murder weapon: the wrench that was found in Mr. Montgomery's toolbox. Let's examine the evidence in folder A. Do any of the suspect's fingerprints match the one found on the wrench?
