

Lawyer: I call suspect #3 to the stand.

Can you explain to the jury why your fingerprints match the ones found on the murder weapon?

Suspect #3: My fingerprints were on the murder weapon because Mr. Montgomery showed me how to use it before the CSI Club meeting. He was fixing a squeaky bolt on a chair and I asked him if I could try it. He said that I could and that's why my fingerprints were on the wrench.

Lawyer: You're excused from the stand. Moving on to Evidence B. Let's examine the partial shoe impression left at the scene of the crime. Do any of the suspect's footprints match the one found near Mr. Montgomery's body?
