

## How to Make a Secret Decoder Necklace

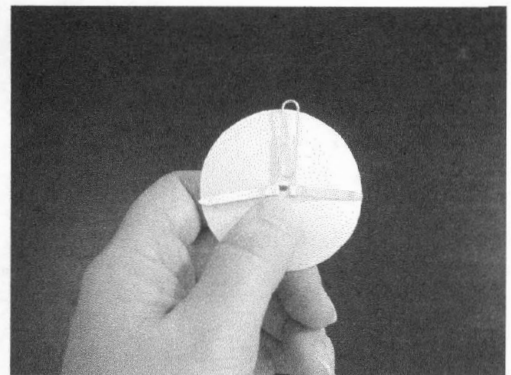

1. Cut out the two decoder circles and layer on top of each other.

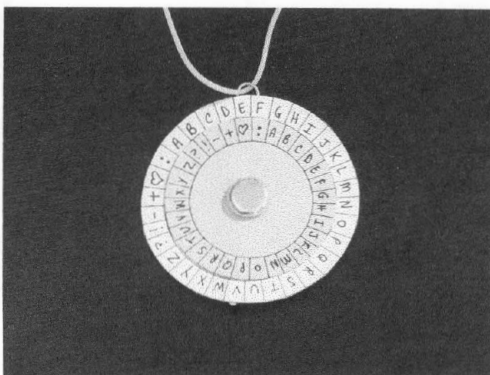

2. Poke the paper fastener through the center hole.

3. Insert a paper clip through the back side of the paper fastener.

4. Fold back the tabs of the paper fastener.

5. Weave string or yarn through the paper clip, creating a necklace.

To use the secret decoder necklace:

Create a code using the outside circle first and the inside circle next. For example use F = S to decode this: “V y!cr aur yvo♡n♡e”
